

PARKING at Riverton High is expanding.

We've heard you! Riverton High School along with Riverton City and the Jordan School District have worked together to expand the parking available for our students.

Parking is a limited resource on many school campuses and Riverton High is no exception. In our continued efforts to expand and improve parking access, we are pleased to announce the following additions:

-The Jordan School District has approved our proposal to expand the Southeast parking lot. (Purple on attached Map)

-Riverton City opened more curbside parking along 2700 west by removing no parking signs and some red curb paint outside of driveway and access points. (Green on Map)

We don't anticipate these additions to make it possible for sophomores to park on campus, however, this will expand their options with on street parking.

Moving forward we will continue to seek ways to increase to parking for our students.

Thank You

RHS Administration
